that the traitors who went for Van Buren in 1848 endorsed the Beltimore Democratic platform of last summer. But what it the traitors in question had endorsed that platform. Can men who have been guilty of perpetrating or attempting treason been itted to a particle of confidence or respect by endorsing this, that, or the other platform? Can men we establish a claim to the slightest consideration hy endorsing a thousand platforms or by endorsing one platform at housand times over? Is to be supposed that a wreich, who, only a very short time ego, was doing a lin bia power to shiver the Union, caree what kind of platform he endorses, so he can.

Traing to the provisious of the law, abandon it and resort the law, abandon it and resort to trausfer dates. We call upon him to say it those white secretaries of the Treasury, whom he now denounce as guilty of violeting the law, were not, in their violations of it, failowing the example of their Locofoco predecessor, whom he and his perty have for years been along a line by the can.

The present Secretary very property decides

But doing what the Locofoco organs during the can- est having been perchased by gentlemen who wass, with real or pretended disg t and wrath, weltake no part in the editorial conduct of the told the nation that Gen. Scott would do if elect- paper. cd. Gen. Pierce has bestowed one of the bighest offices in his gift upon Mr. Dix, who is quite able and influential a Freesoiler as Gov. Seward, and who has exhibited himself as a far more ultra Freesoiler than Gov. Seward, inas-much as the latter never d d, like the former, take part in the organization of a Freesoil party pon t ce-soil ground slone. And Gen. Pierce has also bestowed valuable offices in abundance upon other leading Freesoilers in the several nonatavehold g States, scemingly singling out Freesoilers or Abolittonists for reward in those States almost as carefully and diligently as he has singled out the secessions a for reward in the Southern States. Thus Gen. Pierce, we repeat, has been doing and is doing those things which the Locofoco leaders in the South pretended to think that tren. Scott would do, and be bare thought of which incited them to denounce Scott with ten-fold fury; and yet now, when the very things in question and indeed worse are done by the rown President, they other speak of the matter as just and right and proper, or else endeavor to conceal its very exisence from their readers by their sitence. If any Whig President, if President Taylor or President Fillmore bad made such appointments as President Pierce has made—if either of the former had conferred high appointments upon men, who, less than five years ago, sought to shalter the Union into fragments by the organization of a sect party in the Presidential election, would Whig ears ever have heard the last of Locofoco denunciation and raving? Would no! the whole ntry have rung with the shouts of Locofoco

This Mr. Brown, when asked on the floor of Congress it he had made a secret largain with the Freesorlers in relation to the opeakership, didn't "speak out," but merely shook his head. Then what right has he to say to his weighbor-"come, brother Defrees, speek out." Why doesn't he say-come, brot er Delrees, give us a not or a shake of the head

The editor of the Democrat says that the abolitationists, traitors, and whatever else they were that sought to elset Van Buren to the Presidency in 1846 upon the ground of the Buffalo abolitor platform, were no worse than the Whigs of the meast ere of those Whigs were in favor of the Wilmot proviso. R. J. BROWN, Secretary. Extensive Fires in the Woods.—At voctock yesterday morning, a fire broke out in the woods on the Winchester estate near Newton Upper Falls, and, the wind at the time being high, it spread with great rapidity. The fire continued to spread during the day, and by nightfall had hunt over an extent of reveral miles. It was atopped at about 9 o'clock. In a number of instances, where dwelling houses were in danger, the plan adopted on the prairies of the West, of fighting fire with fire, was resorted to.
